

# HOUSE PIANOS

How to install your KONTAKT instrument.

- 1) Open a FULL RETAIL KONTAKT 6.4.1 or higher in your DAW.
- 2) On the top left, click on ‚Files‘.

- 3) Find your un-zipped folder of the library on your harddrive.
- 4) Double-click the file with the ending ‚.nki‘.

- 5) That's it! Your Kontakt instrument is now ready to play. Make it sound phat!
- 6) To speed up sample loading, feel free to make a **batch re-save**. Follow the instructions of the video below to see how this is done:
